

# 600W Portable Power Station

**BY ACCURATUS**

Accuratus AE-600W

## About

Never worry about running out of power again, with the Accuratus 600W portable power station. The LiFePO4 battery has been proven to last longer than standard lithium batteries, and with our live power usage and battery capacity display, you'll always know exactly how much power you've got left. Our Alternative Energy Power Station uses an isolated circuit design for the USB ports so even when you use them all at the same time, they won't interfere with each other. Fast charging function can be activated at the same time.

## Specifications

- 600W Power Station.
- LiFePO4 Battery.
- 595.2 WH.
- Input: 12~30V.
- AC Output socket.
- 12V Cigarette socket.
- 12V/10A DC5521 Output.
- USB Type-C PD 60W Self-adapting charge & discharge.
- LED soft lighting.
- Pure Sine Wave 240V/600W.
- MPPT System for Solar Panel charging.
- Intelligent HD LCD screen.
- Optional wind turbine and solar panel for extra charging.
- Isolated USB ports working independently from each other.
- Accurate battery capacity display.

- Also available in 1200W, 1800W, & 2400W.

Country of origin: China
